

# COMMUNITY ACTIVITIES

**Olean Lodge #491** applied for and received a \$2,000 Gratitude grant. Members worked with three local organizations to determine needs to help people in the community. The local sites were Genesis House, the Warming House soup kitchen, and BonaResponds. Genesis House operates two shelters in Olean; one shelter houses homeless women and children, and the second shelter is for homeless males. Each shelter provides housing for up to fifty people in a year. The lodge purchased hygiene products that included shampoo, body wash, soap, toothbrushes, toothpaste, mouthwash, razors, shaving cream, combs, band aids, first aid kits for both shelters. Items were delivered to the Genesis House site. The Warming House, a college student-run soup kitchen is located in downtown Olean, and serves on average thirty meals per day to their guests. Food products are stored in a damp basement, which causes food waste. The Warming House director identified needed items; two dehumidifiers and a countertop ice machine. These items will help in the reduction of food waste and cost of ice. BonaResponds is a service organization that serves both local and global needs. Bona Responds serves the community 52 weeks a year by building handicapped accessible ramps for peoples' homes, and providing cleanup after disasters. Items purchased included tools (circular saw and drills), lumber and supplies. The Olean Elks Lodge helps with local needs to serve the community. Pictured are Genesis House director Linore Lounsbury and staff, displaying some of the items received thanks to the grant.
